vCISO Lite Service — Cypentra

Strategic Security Leadership for Startups & Growing Teams

1. INTRODUCTION

The Cypentra vCISO Lite service provides expert security leadership without the cost of hiring a full-time CISO. This service is ideal for startups, SaaS companies, and growing organizations that need strategic direction, guidance, and ongoing support to improve their security posture.

2. WHAT IS INCLUDED IN vCISO LITE

• Monthly security strategy sessions • Cloud security configuration review (AWS/Azure/GCP) • Incident response readiness & coaching • Monthly risk assessments • Policy development advisory • SOC 2 / ISO 27001 compliance coaching • Vendor security evaluation • Priority communication channel with a security specialist

Area	Description
Security Strategy	High-level planning and prioritization of security efforts.
Cloud Review	Monthly posture checks across IAM, networking, logs, and storage.
Compliance Advisory	Guidance on SOC 2, ISO 27001, GDPR, and security frameworks.
Incident Guidance	Expert direction during active or suspected incidents.
Risk Assessment	Monthly overview of emerging business and technical risks.
Vendor Security	Review of external vendors and contractual risk requirements.

3. ENGAGEMENT ROADMAP

Month 1
• Initial posture assessment
• Cloud baseline review
• Security maturity scoring

Month 2–3
• Policy drafting and advisory
• Compliance readiness support
• Incident response readiness review

Ongoing Monthly Support
• Strategy sessions
• Follow-up assessments
• Vendor risk reviews
• Leadership briefings

4. NDA + NO LONG-TERM COMMITMENT

• All engagements require a signed NDA before work begins.
• vCISO Lite is contract-free — cancel anytime.
• No hidden fees or long-term obligations.
